## WORK EXPERIENCE

### Steady Innovation Corporation

Apr 2024 - Present

#### Lead Developer

- Developed a mobile app using React Native, Node.js, and MySQL to deliver a seamless user experience.
- Managed and mentored a work-term student by assigning tasks, reviewing code, and providing guidance to ensure their growth and contribution to the project.
- Contributed to the startup as a lead developer by writing high-quality code, reviewing other developers' code, fixing issues, and integrating features into the live site/app.
- Stayed up-to-date with the latest industry practices and language-specific developments to maintain a high standard of code.
- Utilized a wide range of tools including VSCode, MySQL Workbench, AWS, React Native, ReactJS, Node.js, Express.js, and npm to develop and maintain software solutions.

### Steady Innovation Corporation

Jan 2023 - Apr 2023,

#### Junior Web Developer (Intern)

Oct 2023 - Dec 2023

- Spearheaded the development of a ReactJS-based vendor-client exchange platform.
- Leveraged innovative solutions to enhance user experience and engagement.
- Contributed to business growth by attracting an increased number of users.

### Office of Applied Research and Innovation

May 2022 - Aug 2022

#### Tech Teams Lead

- Resolved complex technical issues, enhancing website performance and user experience.
- Led two cohorts of high school students to build a website for the town of Pasadena.
